

**FEDERAL STATE BUDGETARY EDUCATIONAL INSTITUTION
OF HIGHER EDUCATION**

**BRYANSK STATE ENGINEERING
TECHNOLOGICAL UNIVERSITY**

Language of study: Russian

Bryansk State Engineering Technological University is one of the oldest higher educational institutions in Russia. The University comprises 3 Institutes: Civil Engineering Institute, Institute of Forest Complex, Transport and Ecology and Engineering-Economic Institute, Faculty of General Scientific and Advanced Training, Preparatory Department for Foreign Citizens, 24 departments, post-graduate courses, training and experimental forestry station, arboretum with the unique collection of trees and shrubs and the scientific library. There are many foreign students from 22 countries of the world. The campus is located near the university and includes 4 comfortable dormitories.

PREPARATORY DEPARTMENT

Preparation for foreigners

Duration of study: 12 months

The Preparatory Department for Foreign Citizens of the Faculty of General Scientific and Advanced Training of the Bryansk State Engineering Technological University accepts foreign citizens who do not speak Russian or have an insufficient level of knowledge of the Russian language, for academic purposes. In the first semester, pre-students normally take Russian every day. In the second semester, profession-oriented subjects are added to the study plan depending on the chosen student's future occupation.

Directions of preparation:

- Engineering and technical (Russian, Mathematics, Computer science, Physics);
- Economic (Russian, Mathematics, Computer science, Social studies);
- Biomedical (Russian, Biology, Chemistry, Mathematics);
- Natural science (Russian, Mathematics, Computer science, Chemistry).

CIVIL ENGINEERING INSTITUTE

Bachelor's degree programs

Duration: 4 years

Mode of study: full-time

- Civil Engineering (“Industrial and Civil Engineering”)

- Civil Engineering (“Urban Construction and Municipal Services”)
- Civil Engineering (“Construction Materials and Construction Design”)
- Civil Engineering (“Highways and Airfields”)
- Civil Engineering (“Heat and Gas Supply and Ventilation”)
- Electrical Power and Electrical Engineering

Master's degree programs

Duration: 2 years

Mode of study: full-time

Civil Engineering:

- Theory and Design of Buildings and Structures
- Design, Construction, Operation and Maintenance of Roads
- Technologies of Building Materials, Products and Constructions
- Innovative Technologies for the Construction, Operation and Reconstruction of Buildings and Structures
- Design, Construction and Operation of Buildings and Facilities

INSTITUTE OF FOREST COMPLEX, TRANSPORT AND ECOLOGY

Bachelor's degree programs

Duration: 4 years

Mode of study: full-time

- Exploitation of Transport and Technological Machines and Complexes (“Car Service”)
- Technological Machines and Equipment
- Technosphere Safety (“Life Safety in Technosphere”)
- Technology of Transport Processes
- Energy and Resource-Saving Processes in Chemical Engineering, Petrochemistry and Biotechnology
- Horticulture (“Ornamental Horticulture and Landscape Design”)
- Technology of Logging and Wood Processing Industries (“Woodworking Technology, Furniture and Interior Design”)
- Technology of Logging and Wood Processing Industries (“Machinery and Technology for Forestry and Transport Processes”)
- Forestry
- Landscape Architecture (“Landscape Construction”)

Master's programs

Duration: 2 years

Mode of study: full-time

- Technological Machines and Equipment (“Technological Processes, Machines and Equipment of the Forest Complex”)
- Environmental Management and Water Use (“Environmental Protection and Restoration Methods”)
- Landscape Architecture (“Modern Landscape Architecture and Urban Design”)
- Forestry (“Organization of Forest Management, Reproduction, Conservation and Protection of Forest”)

ENGINEERING-ECONOMIC INSTITUTE

Bachelor's degree programs

Duration: 4 years

Mode of study: full-time

- Economics
- Management
- Informatics and Computer Engineering
- Information Systems and Technologies
- Software Engineering
- Applied Informatics

Specialty's degree program

Duration: 5 years

Mode of study: full-time

- Economic Security

Master's degree programs

Duration: 2 years

Mode of study: full-time

- Information Systems and Technologies (“Intelligent information systems and technologies”)
- Economics

WHY STUDY AT THE

BRYANSK STATE ENGINEERING TECHNOLOGICAL UNIVERSITY

- Bryansk State Engineering Technological University is recognized all over the world.
- Bryansk State Engineering Technological University is a university with a rich history and centuries-old traditions.

- The educational process at the Bryansk State Engineering Technological University is provided by 320 highly qualified lecturers, including 48 Professors, Doctors of Sciences, and 205 Associate Professors, Candidates of Science (Russian equivalent for PhD).
- Bryansk State Engineering Technological University is located near Moscow (only 4 hours by train) but tuition fee is significantly lower than in Moscow universities.
- Welcoming atmosphere and comfortable conditions for life and study.
- Bryansk State Engineering Technological University opens up a huge number of opportunities and gives an incredible impetus for further development.
- Sport, healthy lifestyle, ecology, culture, leadership, volunteering activities.
- Bryansk State Engineering Technological University has great traditions: education, good experience and know how to help with you dream to become a successful person.
- Graduates of the Bryansk State Engineering Technological University are highly demanded all over the world.

Bryansk State Engineering Technological University welcomes all foreign students. If you want to learn more about our education programs, admission procedure, or have other questions feel free to contact us! We are **available for voice/video call and chat with you:**
